WOMEN PROTECTION CELL:

This is an administrative body often set up to ensure the day-to-day safety and security of women on campus. The Women Protection Cell in a college is an essential committee aimed at ensuring the safety, well-being, and rights of female students, staff, and faculty. To provide a safe and secure environment, monitor women's safety, and handle general grievances.

Functions and Responsibilities:

- ❖ The cell organizes awareness programs, workshops, and seminars to educate students and staff about women's rights, gender equality, sexual harassment laws (such as the Sexual Harassment of Women at Workplace Act, 2013), and the importance of mutual respect and consent.
- ❖ Ensures that the college environment is free from sexual harassment and other forms of violence. It works with the administration to implement policies and systems to protect women, such as creating safe spaces, installing security cameras, and ensuring proper lighting in vulnerable areas along with ICC.
- ❖ Regular workshops and seminars are conducted to raise awareness about sexual harassment, educating students and staff about what constitutes harassment, how to prevent it, and how to report it.
- ❖ The cell may collaborate with external organizations or legal experts to ensure that the college is up-to-date with the latest regulations and practices related to women's safety and empowerment.
- ❖ To empower women and give them the skills to protect themselves, the Women Protection Cell may organize self-defense training sessions or workshops.
- ❖ Maintain annual report summarizing its activities, the number of cases handled, the outcomes, and the steps taken to improve safety and gender equality on campus.
