Pharma Ideation & Hackathon Club

Functions:

The Pharma Ideation & Hackathon Club aims to foster creativity, innovation, and problem-solving skills among students by encouraging ideation and development of novel solutions in pharmaceutical sciences, healthcare, and allied domains.

Responsibilities:

- To organize ideation challenges, hackathons, and innovation sprints addressing real-world pharmaceutical and healthcare problems.
- To encourage interdisciplinary collaboration among students from pharmacy, healthcare, technology, and management backgrounds.
- To provide mentorship and guidance for idea generation, design thinking, and prototype development.
- To promote problem-based learning and entrepreneurial thinking among students.
- To facilitate interaction with industry experts, innovators, and start-up mentors.
- To support the conversion of innovative ideas into feasible projects, start-ups, or research outcomes.
- To create awareness about emerging technologies such as digital health, AI in healthcare, and pharmaceutical informatics.
- To encourage participation in national and international hackathons and innovation competitions.
- To document and showcase innovative ideas and outcomes through exhibitions, reports, and institutional platforms.
